

# START LIKE A CHAMPION

Champion® your machines with our full line of Commercial Batteries.

- The grid technology inside gives you the power of a Champion with every start
- Current flow is optimized for consistent power over the life of the battery
- Designed to help minimize corrosion and consistently produce reliable starting power
- Case design provides increased stability for high-vibration applications

### **CHAMPION® COMMERCIAL BATTERIES**

Champion has introduced a new line of batteries for the commercial and heavy-duty markets including both starting and deep cycle batteries in flooded and AGM (Absorbed Glass Mat) styles. Champion batteries feature a fully-framed positive grid that is more corrosion-resistant and delivers more cranking power than other grid designs.

Built to withstand the daily grind of hardworking machines and is backed by free-replacement warranty up to 18 months.

23 Commercial battery part numbers are available.

Champion automotive, marine, lawn and garden, golf cart and power sport batteries are also available.
